

Policy on Inclusion

(see also English as an Additional Language (EAL); Equal Opportunities; Gifted and Talented Children; Racial Equality; Special Educational Needs)

1 Introduction

- 1.1 We are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter. This policy helps to ensure that this school promotes the individuality of all our children, irrespective of ethnicity, attainment, age, disability, gender or background.

2 Aims and objectives

- 2.1 Our school aims to be an inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils. This means that equality of opportunity must be a reality for our children. We make this a reality through the attention that we pay to the different groups of children within our school:
- girls and boys;
 - minority ethnic and faith groups;
 - children who need support to learn English as an additional language;
 - children with special educational needs;
 - able, gifted and talented children;
 - children who are at risk of disaffection or exclusion;
 - travellers;
 - asylum seekers.
- 2.2 The National Curriculum is our starting point for planning a curriculum that meets the specific needs of individuals and groups of children. We meet these needs through:
- setting suitable learning challenges;
 - responding to children's diverse learning needs;
 - overcoming potential barriers to learning and assessment for individuals and groups of pupils;
 - providing other curricular opportunities outside the National Curriculum to meet the needs of individuals or groups of children. (This includes speech and language therapy and mobility training.)
- 2.3 We achieve educational inclusion by continually reviewing what we do, through asking ourselves these key questions:
- do all our children achieve their best?
 - are there differences in the achievement of different groups of children?
 - what are we doing for those children who we know are not achieving their best?
 - are our actions effective?
 - are we successful in promoting racial harmony and preparing pupils to live in a diverse society?

3 Teaching and learning style

- 3.1 We aim to give all our children the opportunity to succeed and reach the highest level of personal achievement. We analyse the attainment of different groups of pupils to ensure that all pupils are achieving as much as they can. We also make ongoing assessments of each child's progress. Teachers use this information when planning their lessons. It enables them to take into account the abilities of all their children. For some children, we use the programmes of study from earlier key stages. This enables some of our children to make progress in their own lessons, perhaps after significant amounts of time spent away from school.
- 3.2 When the attainment of a child falls significantly below the expected level, teachers enable the child to succeed by planning work that is in line with that child's individual needs. Where the attainment of a child significantly exceeds the expected level of attainment, teachers use materials from a later key stage, or extend the breadth of work within the area or areas for which the child shows particular aptitude.
- 3.3 Teachers are familiar with the equal opportunities legislation covering race, gender and disability.
- 3.4 Teachers ensure that all children:
- feel secure and know that their contributions are valued;
 - appreciate and value the differences they see in others;
 - take responsibility for their own actions;
 - participate safely in clothing that is appropriate to their religious beliefs;
 - are taught in groupings that allow them all to experience success;
 - use materials that reflect a range of social and cultural backgrounds, without stereotyping;
 - have a common curriculum experience that allows for a range of different learning styles;
 - have challenging targets that enable them to succeed;
 - participate fully, regardless of disabilities or medical needs.

4 Children with disabilities

- 4.1 Some children in our school have disabilities. We are committed to meeting the needs of these children, as we are to meeting the needs of all groups of children within our school. The school fully meets the requirements of the amended Disability Discrimination Acts that came into effect in September 2002 and in 2005. All reasonable steps are taken to ensure that these children are not placed at a substantial disadvantage compared with non-disabled children.
- 4.2 The school is committed to providing an environment that allows disabled children full access to all areas of learning. All our classroom entrances are wide enough for wheelchair access, and the designated points of entry for our school also allow wheelchair access. We have specialist desks and chairs for pupils with limited motor-coordination skills. Our Access Plan identifies how we intend to increase the extent to which disabled pupils can take advantage of all that our school has to offer.
- 4.3 Teachers modify teaching and learning expectations as appropriate for children with disabilities. For example, they may give additional time to complete certain activities, or they may modify teaching materials. In their planning, teachers ensure that they give children with disabilities the opportunity to develop skills in practical aspects of the curriculum.

4.4 Teachers ensure that the work undertaken by disabled children:

- takes account of their pace of learning and the equipment they use;
- takes account of the effort and concentration needed in oral work, or when using, for example, vision aids;
- is adapted or offers alternative activities in those subjects in which children are unable to manipulate tools or equipment, or use certain types of materials;
- allows opportunities for them to take part in educational visits and other activities linked to their studies;
- includes approaches that allow hearing-impaired children to learn about sound in science and music, and visually impaired children both to learn about light in science, and also to use visual resources and images both in art and design and in design and technology;
- uses assessment techniques that reflect their individual needs and abilities.

5 Inclusion and racism

5.1 The school has implemented the recommendations of The Stephen Lawrence Inquiry: Macpherson Report (1999). The diversity of our society is addressed through our schemes of work, which reflect the programmes of study of the National Curriculum. Teachers are flexible in their planning and offer appropriate challenges to all pupils, regardless of ethnic or social background. All racist incidents are now recorded and reported to the governing body by the headteacher. The school contacts parents or carers of those pupils involved in racist incidents. Further details are to be found in the school's Racial Equality Policy.

6 Summary

6.1 In our school, we value each child as a unique individual. We will strive to meet the needs of all our children, and seek to ensure that we meet all statutory requirements related to matters of inclusion.

6 Monitoring and review

6.1 This policy is monitored by the governing body, and will be reviewed every two years, or earlier if necessary.
